

Quarters to Semesters: Micro MINOR

Required under quarters:

Micro 520

Micro 521

10 hr. of Group 1 courses

Required under semesters

Micro 4100

6 hr of required courses (choose 2 from: 4110, 4120, 4130, 4130)

3 hr of Group 1 electives

If you have taken Micro 520 or 520 + other major courses, you will complete the minor using the “quarter plan” (see below). If you have not begun to take micro minor classes before semesters begin, you will complete the minor using the “semester plan”.

Minor “Quarter Plan” completed under semesters:

Courses you have taken under quarters	M 520*	M520 M521*
Courses you will be required to take under semesters	M4102**	NONE
Semester hours you will need to take to complete minor Group 1 electives	7	7

**If you have also completed some micro minor electives along with the courses listed, please see the information below to determine how the total number of semester hours you must take will change from 7.*

****M4102** is the Micro 521 “bridge” course. Students in this class will join the on-going M4100 class at the 7th week of the semester and complete the 2nd half of both lecture and lab.

Calculating Change in Hrs. of Group 1 Electives:

- Multiply your total number of quarter elective hours taken (or to be taken) by 0.67
- Subtract that number from 7...This will be the NEW number of semester hours you will need to take.
